

## Installing EndNote on Mac

- Go to <https://www6.uis.no/dist/>
- Log in via Feide.
- Choose «EndNote» under Available Software.
- Choose Macintosh.
- Double click «EndNoteX8SiteInstaller.dmg
- The installer will place itself in Downloads. Open it from there, and install EndNote the same way you install other programs.

Do not download the 30 days trial!

Contact the library if you have any problems with the installation.
