

Universida de Alicante, Spain

Scholarships:

It is possible to make use of the Erasmus agreement which is open for 2 students. Students can apply for Erasmus scholarships and will not have to pay tuition fees.

Exchange semester: It is possible to travel on exchange during the 2nd or 3rd semester.

Credits: 1 credit = 1 ECTS

Language of instruction: Teaching in Spanish and English.

Choice of courses:

The University offers a Master of Geological Engineering, for more information see [link](#). Overview of topics that are offered can be found here: [link](#)

It is important that the topics you choose are offered the semester you plan to travel on exchange.

We recommend choosing more courses than you need if case there is a collision in the time schedule. It is recommended that students make sure the courses they have selected are thought in English, unless you understand and speak Spanish.

Contact the student consultant at your department for more information and advice regarding selection of courses.
