

# RWTH Aachen University, Tyskland

---

## **Scholarships:**

It is possible to make use of the Erasmus agreement, which allows for exchange for 2 students. Students can apply for Erasmus scholarships and will not have to pay tuition fees.

**Exchange semester:** We recommend exchange to Aachen in the 3 semester, Germany and Norway has a very different academic calendar. The German Autumn semester: October-February

Spring semester is from: April-July

Credits: 1 credit = 1 ECTS

Language of instruction: Teaching in German and English.

## **Choice of topics:**

[Faculty of Georesources and Materials Engineering](#) at Aachen offers a master in [Applied Geophysics M.Sc](#) , [Applied Geosciences M.Sc](#) , [Georesource Management M.Sc](#) for more information see [link](#). Assistance how to find the best courses: [lenke](#)

Please check that the courses you choose are offered the semester you plan to travel on exchange. The semesters in Germany are somewhat different to Norway. If the course plan and the timetable are not posted online at the time of application for exchange, changes to your study plan at Aachen might occur. It is therefore important to choose more subjects than you need and remember be in good dialogue with the study consultant at the department regarding any changes of courses.

We recommended you to make sure that the courses you have chooses will be offered in English, unless you speak German.

Please remember to inform the study consultant at the department before and during the exchange, what courses you are planning to study at Aachen.
