LIFE AT RENNES SB 18
With the pace of business and societal changes becoming ever more complex, faster and spanning borders, business leaders must thrive in an ever-changing environment. Old methods of thinking are no longer suited to the challenges of tomorrow, so, at Rennes School of Business we believe that education is the key to helping students step out of existing frameworks.

With 95% of faculty members and 55% of students coming from outside of France, Rennes School of Business brings the world to our students by opening their minds towards other cultures. Our mission: to allow students to think beyond the framework by living a unique and international experience that will stay with them forever and turn education into a true exchange.

Thinking beyond the framework is about standing out from the rest, working differently, discovering new fields and anticipating tomorrow’s challenges to make way for a better and more innovative future.

The quality of our processes, faculty, research and programmes has been endorsed by the leading international accreditation organisations. Rennes School of Business is one of less than 1% of Business Schools in the world to hold EQUIS, AACSB and AMBA “triple crown” accreditation status. This guarantee of quality is our promise to our students and partners.

I look forward to welcoming you to Rennes School of Business.
RENNES: AN IDEAL LOCATION

Rennes School of Business is located in Rennes, the capital and largest city of the Brittany region of France. Students can take advantage of this central location which allows for quick access to nearby destinations: in only 55 minutes one can breathe in fresh sea air; the city of lights, Paris, is just 1h30mn by train; and it’s possible to fly to lovely London in just 1 hour!

Rennes is a vibrant, beautiful city steeped in history and filled with ancient, medieval architecture juxtaposed by modern amenities. It is clearly a student city: the total population of Rennes (426 500 people) includes 65 500 students. Officially ranked by the national press, it is constantly developing and expanding.

Ranked 2nd best city in France in which to work (L’Express, January 2019)

Ranked 5th best city in France in which to live (L’Express, Ranking 2018)

Ranked 4th best city in France in which to study (L’Étudiant, Overall ranking of student cities 2018-2019)

Earn a CERTIFICATE IN AI BUSINESS and take credit giving modules. Develop competences from basics to advanced in Python application of the new business tools of data science. Apply machine learning and deep learning to business data analysis.

Create business intelligence through application and visualisation. Learn from automated analysis of text and networks. Develop AI business projects to showcase your skills to future employers. Build a deeper understanding of complex environments and how to derive an advantage from them.
DATA SCIENCE FOR BUSINESS

Monday 11th MAY – Friday 15th MAY 2020

This module starts with the very basics of Python coding and works up to modern advanced techniques such as machine learning and deep learning.

The field of data science for business is the context for the class, and therefore applied business examples are the focus. The module is very practical – you will follow the lessons using shared Python codebooks and implement the techniques along with the professor.

TOPICS COVERED

• Learn Python from the very beginning
• Master machine learning for business
• Understand AI deep learning techniques
• Apply learning to real business datasets

AI BUSINESS INTELLIGENCE

Monday 18th MAY – Saturday 23rd MAY 2020 (Thursday 21st May 2020 is a bank holiday)
PRE-REQUISITES: coding experience or attend the “Data Science for Business” class before.

In business data science we take business data and create business intelligence. This module focuses on the creation and presentation of that business intelligence. You will work primarily on Tableau (for which a personal license will be provided to you), the leading intelligence generation and visualisation platform in modern business.

TOPICS COVERED

• Develop expert Tableau knowledge
• Apply Python for data visualisation
• Understand business intelligence needs
• Generate automated BI reporting
How to automate creating knowledge from written documents is still in its beginning stages. Largely people still manually read documents in order to extract intelligence from them. But data science, through its natural language processing field, offers fascinating new techniques to automate generating knowledge from text. This module brings you on a journey through the practical application of the most business relevant of the techniques.

**TOPICS COVERED**
- Extract knowledge from text
- Apply natural language processing
- Learn new science of topic modelling
- Measure text sentiment and complexity

The best businesses make effective use of their networks - such as their workforce and their external connections including customers and social media networks. They might crowdsource intelligence, customers, and funding. In this module we show how new data science techniques allow the extraction of business intelligence from the firm's diverse networks.

**TOPICS COVERED**
- Understand connectivity of today's society
- Analyse social and business networks
- Learn network visualisation techniques
- Apply big data techniques and analytics
REGISTRATION DEADLINES:
- 15th March 2020

FEES:
- 1 050€ for one course,
- 1 900€ if 2 courses,
- 2 500€ if 3 courses,
